FOOD & AGRICULTURE

To: Interested Industrial Hemp Cultivation Applicants

Subject: California Industrial Hemp Cultivation Requirements

Thank you for your interest in registering to cultivate industrial hemp in California.

In accordance with Sections 81003 and 81004 of the California Food and Agricultural Code and Section 4901 in Title 3 of the California Code of Regulations, industrial hemp growers and breeders are required to register prior to planting.

California requirements for industrial hemp cultivation can be found in Division 24 of the California Food and Agricultural Code (FAC) and in Title 3, Division 4, Chapter 8 of the California Code of Regulations (CCR). A copy of the current laws and regulations are included in the application packet for your convenience. Please review the law and regulations prior to submitting your application to your county agricultural commissioner's office.

It is important to understand the cultivation requirements outlined in law and regulations as there are new registration requirements for 2020. California law now prohibits any applicant, registrant, or key participant found to have a disqualifying conviction from participating in the industrial hemp program for ten (10) years from the date of conviction. A criminal history report for each key participant, as defined in CCR Section 4902(a)(2), must be submitted along with the registration application to the commissioner.

A disqualifying conviction, per 3 CCR Section 4902(a)(3), means any plea of guilty or nolo contendere, or any finding of guilt for a State or Federal felony related to a controlled substance, except when the finding of guilt is subsequently overturned on appeal, pardoned, or expunged, or where an individual is allowed to withdraw an original plea of guilty or nolo contendere and enter a plea of not guilty and the case is subsequently dismissed.

CDFA has also adopted regulations (3 CCR Sections 4901, 4902, 4940, 4941, 4942, 4943, 4944, 4945, 4946, 4950, and 4950.1) pertaining to industrial hemp application, criminal history report, sampling and testing for THC Content, harvest, and destruction through emergency rulemaking. These emergency regulations may be subjected to

changes as CDFA will propose to amend and permanently adopt the emergency regulations through the regular rulemaking process in accordance with California Administrative Procedure Act (APA).

Federally, the U.S. Domestic Hemp Production Program was established by the U.S. Department of Agriculture (USDA) through an interim final rule on October 31, 2019. The interim final rule provides the requirements for State and Tribal regulatory plans submitted to USDA for review and approval. CDFA has submitted California's proposed state regulatory plan for hemp production to USDA for review and approval on September 18, 2020. The proposed California state regulatory plan for hemp production can be found on the Industrial Hemp Program webpage at, <https://www.cdfa.ca.gov/plant/industrialhemp/docs/ProposedCAStateRegulatoryPlanforHempProduction.pdf>.

CDFA will notify all registrants and the public via our electronic mailing list when any regulations are posted and available for public comment and when CDFA receives any updates from USDA regarding the proposed state regulatory plan.

For information regarding any additional local restrictions that may apply to any proposed activities, please contact the applicable county and/or city officials, including the county agricultural commissioner's office. The following counties may have additional restrictions on industrial hemp cultivation: Amador, Calaveras, Glenn, Humboldt, Lassen, Mariposa, Mendocino, Modoc, Mono, Monterey, Napa, Nevada, Placer, Sacramento, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Solano, Sonoma, Stanislaus, Tehama, Trinity, Tulare, Tuolumne, Yolo, and Yuba.

For additional information on California's hemp law, and to sign up to receive updates on the status of industrial hemp from CDFA, please visit us online at <https://www.cdfa.ca.gov/plant/industrialhemp/>.
