

Scott's Story 62 years old):

In February of 2023, Scott's life completely changed and for the first time he became homeless. He was renting a room and unfortunately his roommate was not paying the rent on her mobile home lot. Scott ended up having to leave. He contacted the organization Hands of Hope where he did a Coordinated Entry intake and was connected with a Case Manager. His Case Manager sent a referral to Better Way and he was able to enter the program. Scott stated "I am so glad for Better Way, and it works! Just follow the rules. The monitors and staff helped me out a lot." He worked diligently with our Housing Navigator and was able to obtain housing at Harmony Village. He stated that "I am a happier, better and stronger person. I am so excited and looking forward to family visits with my daughter and grandson." Scott was permanently housed in 8/21/23 and continues to be housed.
