

## **Ruth's Story (85 years old):**

Ruth said, "I was born in Leipsic, Ohio, and I grew up all over the world. My dad was a Navy man, we traveled a lot! And then I wound up in yuba city. I had a house in Texas and like a dummy I sold it! I came out here to live with my son and his wife and then I got Covid. So, I've been stuck here ever since". She struggled like many trying to find somewhere because the rent prices were so high. She worked hard with case management and housing to find an affordable place for her to live. She wanted to be there more for her family. She has been housed since 2022!
