

Julia's Story (76 years old):

Congratulations to Julia, on securing permanent housing! Julia became homeless after the person who she was staying with could no longer house her. The woman's daughter was moving back into the home and unfortunately for Julia this meant that she and her little dog, "Machi", would have to leave. This forced Julia to live out of her car for a while. Julia had heard Better Way allowed participants to bring their pets (so long as they are registered and up to date on their vaccinations) and jumped at the opportunity to come into our shelter. Julia's advice to anyone experiencing homelessness is to "Make sure you stick to a schedule, and don't wander".

Today Julia & Machi are enjoying their days in their dream home! She moved into an affordable senior housing unit. She keeps herself busy by helping tend the community garden and working part-time when she gets the chance to do so. Please join us in wishing Julia the best in her new journey! Julia was permanently housed June 30, 2022
