SUTTER COUNTY PUBLIC WORKS, TRAFFIC, DRAINAGE, AND FLOOD CONTROL APPLICATION REQUIREMENTS

Applicants are required to submit sufficient traffic, drainage, and flood control information necessary for the County to make a determination that a site identified for a proposed project is physically suitable for the proposal.

Additional information may be required to be submitted to identify development impacts and to support proposed mitigation of those impacts in accordance with the California Environmental Quality Act (CEQA). Technical studies, data, memoranda, and other information on traffic, drainage, and flood control may be required before the proposed application can be scheduled for action. Once the County has received sufficient information from the applicant, the County will determine appropriate conditions of approval for that specific project.

Pre-application consultation with County Public Works Staff on your project specifics will assist in determining the level and type of information and analysis necessary. Public Works staff can be contacted at (530) 822-7450 or email the County's Land Development Engineer at dtomm@co.sutter.ca.us.

ADVISORY RE: FISH AND WILDLIFE FEE REQUIREMENT

Pursuant to Fish and Game Code Section 711.4, all project proponents subject to the California Environmental Quality Act (CEQA) shall pay an environmental document filing fee for each project. Projects that are exempt from CEQA are not subject to the environmental document filing fee.

This fee increases every year. As of January 2025, the fee is \$2,968.75 for a project with a Negative Declaration or Mitigated Negative Declaration and \$4,123.60 for a project with an Environmental Impact Report (EIR). The fee shall be paid together with a \$50.00 fee to the County Clerk, at the time of posting the Notice of Determination. A Notice of Determination cannot be filed, and any approval of the project shall not be operative, vested, or final until the required fee is paid. This shall mean that Building, Environmental Health, Public Works and other development permits cannot be approved until this fee is paid.

This fee is **not** a Sutter County fee; it is required to be collected by the County pursuant to State law for transmission to the Department of Fish and Wildlife. This fee was enacted by the State Legislature in 2006 and is adjusted each January 1st in accordance with *Implicit Price Deflator for State and Local Government Purchases of Goods and Services, as Published by the U.S. Department of Commerce*.

Current fees and information regarding the Environmental Document Filing Fees is available on the Department of Fish and Wildlife website at <https://wildlife.ca.gov/Conservation/Environmental-Review/CEQA/Fees>.
